Powerful 3000W Induction Cooking

Induction cooking uses a magnetic field to create an electric current. Once you set a compatible pot or pan on the hob, working temperature is reached quickly with precise control and efficiency.

Pause Mode

Perfect for those busy times when you're interrupted while cooking. Simply pause cooking, and the cooktop will recall what settings you were using when you resume.

Full Bevelled Glass Design

The frameless bevelled glass is another one of De'Longhi's functional solutions to cleaning. There are no corners or cracks to worry about food getting stuck in.

TECHNICAL SPECIFICATIONS

Product Dimensions (H x W x D)	mm	58 x 580 x 510
Voltage	V	220 – 240
Current	A	32.17
